My Learning

Year 5

Autumn 1

English – Beetle Boy

This is a detective story with a twist: Darkus's quest to find his dad is supported not only by his two best friends – Bertolt and Virginia – but also his new pet beetle, Baxter. And Baxter is no ordinary beetle. Baxter is huge (the size of a hamster), has the intelligence of a human, and several hundred friends hiding next door just waiting for the call to action.

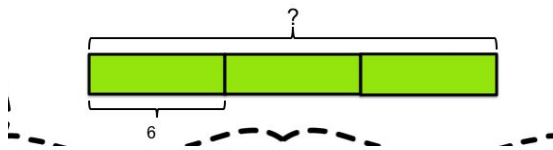

Maths

This half term we will be focusing on place value of numbers up to 1,000,000. We will look at the value of each digit within these numbers as well ordering and rounding numbers to 1 million.

Addition and subtraction will look at using both written and mental methods accurately. We will be using the bar model and the column methods to support children in their learning.

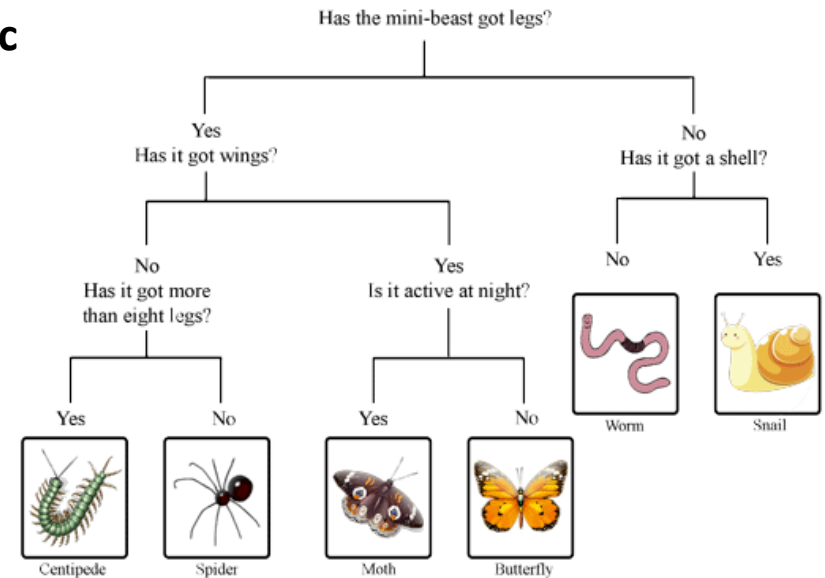

$$\begin{array}{r}
 \overset{3}{4} \overset{1}{2} 7 \\
 - 363 \\
 \hline
 64
 \end{array}$$

Bar modeling is a strategy which uses models to solve word problems.

Millions	Hundred Thousands	Ten Thousands	Thousands	Hundreds	Tens	Units
	3	5	1	4	8	9

Topic

What will we be learning about?

A bug, a creepy-crawly, a beast! He'll tickle your skin then go in for the sting!

Arachnids, invertebrates, molluscs and myriapods, hiding in nooks and beneath darkened rocks... We shall be searching and sorting them out! From identification and habitats to building a bug hotel and creating our very own minibeast.

See what you can find out about the fascinating world of creepy crawlies!
